# USE CLASSES FOR GFFR

# PRESENT

# FUTURE

## DIRECT

### Forward Looking

I am an MoF official who wants to close the NDC down

I am an NDF official and I want to know which oil and gas fields will close in what order

I am an investor considering an FF backed sovereign loan

I am an investment banker seeking to analyse viability of a capex loan in FF (forward looking)

I am an activist researcher who wants to quantify FF production in my country's NDC

## INDIRECT

### Paradigm Shift

WARNING  
\$1.30 in tax per CO2 tonne

I am a campaigner & want to trigger best places to check methane leaks

DANGER  
750 tonnes CO2 per day!

### Standardisation of FF reserves concepts

I am an IFI official seeking to persuade a govt. not to pursue a gas to power project

### Relative Carbon Intensity

I am a BC official and want to know how much \$C carbon cases raise at diff. levels

I am a German official setting NDC standards and need to know about real CO2E intensity of fuel mix

I am a subsidies camp seeking to include CO2E estimates in cases (RCI) led

I am an investor & want to know the impact of RCI on producing fields

I am an E&E official seeking RCI info to revise MSR and refinery provisions in Cap & Trade

I am an activist litigator seeking to strengthen class action suits w/ CO2E estimates

I am a staffer in Bob Wreckowski's office and want to formulate an RCI bill on Californian refineries

### Analytical

I am a candidate for high office seeking to justify a No New Licences policy - (assumes growth)

### Blue Skies

I am Canadian official designing a FF blockchain tagging scheme

I am the UN seeking to create a 'Paris for agriculture'

## Hybrid

I am an HIPC official (Bolivia) looking for OECD concessions on share of carbon budget

I work in an IFI and want to know what a fair LINGD offer is...

### Process

I am a govt. official seeking best practice on how to 'go Main' on FF reporting

### Reporting Reforms

I am Bloomberg seeking low cost integration of climate risk reporting data...

I am an investment analyst seeking quick unders. of changes in climate risk reporting
